### Earth Day

The first Earth Day was celebrated on April 22, 1970. Since then the Earth Day Network (<http://www.earthday.net>) has promoted environmental

awareness around the world. Visit the website to take the *Ecological Footprint Quiz!*

(from the website): Ever wondered how much “nature” your lifestyle requires?

This Ecological Footprint Quiz estimates how much productive land and water you need to support what you use and what you discard. After answering 15 easy questions you’ll be able to compare your Ecological Footprint to what other people use and to what is available on this planet.

Also, This year the network will start a three-year Climate Change Solutions Campaign, and as part of this effort the local WGTV television station will host the premier of a two-part series *Planet H2O*, hosted by Sara Paxton and America Ferrera starting on April 23 at 10:30 p.m.
