

Net Library Browser plug-in installation instructions- page 1

E-books available through Net Library require a “browser plug-in.” A link to a download of the necessary plug-in is on the “title page” for Net Library titles. For Internet Explorer follow the link to the [DjVu Browser Plug-in](#) and “auto-install” it. For Mozilla Firefox it is necessary to manually install the plug-in so follow that link and follow the instructions. Mac users may need the [Schubert|it PDF Browser Plugin](#).

NetLibrary for Mac users

The PDF files used by NetLibrary are compatible with most web browsers available to Mac users but the Schubert|it PDF Browser Plugin is necessary. Follow the download and installation instructions located on their website:
