Help with Citing Your Sources

Ready to turn your paper in, but just need to finalize the bibliography?   You could try our very own KnightCite to generate your citations.

To use KnightCite, go to: Library homepage > Quick Links

Another free citation management tool we recommend is Zotero (www.zotero.org).

As a web browser add-on, Zotero is a very handy way to capture citations as you research the web and our library resources; it's also useful because it helps you store and organize citations for long-term research projects (think Honors or cap-stone papers).
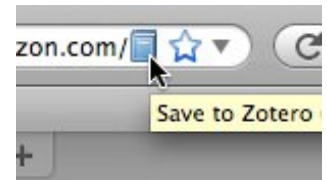

Want to learn more? Check out our "How To" guide on Zotero: http://libguides.calvin.edu/zotero

Citation Manuals

And for those especially tricky citations, check the print version of the style manual you've been assigned. You will find much more detailed advice and explanations, and also can be assured that you're getting the "official" citation rules.

All three major style manuals (APA, MLA, Chicago) can be found at the Research Assistance Desk on the 2nd floor of the library. Just ask us and we'll loan them to you for in-library use!
